00 MEET MAYA

Maya completed JOSHWAY Bridge, a youth leadership program that connects young people to real world opportunities through life skills, self-confidence, and digital literacy. This Charter is her own summary of that journey, in her words, so you can pick up where we leave off.

01 HER WHY

I want to be a nurse practitioner someday. When my grandmother was sick, one nurse made her feel safe, and I want to be that person for someone else.

IN HER OWN WORDS

05 IN HER WORDS

SPEAK UP

What is one thing you want people to hear from you?

That being quiet does not mean I have nothing to say. I am learning to start with one sentence.

GROWTH MINDSET

What felt hard that you did anyway?

Presenting my idea to the class. My hands shook, but I finished and two people asked questions.

WELL-BEING

What is one way of taking care of yourself that will matter more in high school?

Sleeping enough. I was giving up sleep for my phone, and I am better when I stop.
